DEREX

DRILLS FOR THE HOLE WORLD

1340 DR

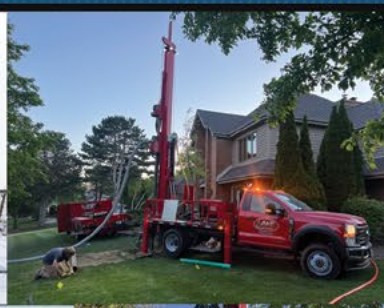

THE MOST COMPACT DUAL ROTARY TRUCK MOUNTED DRILLING RIG IN THE WORLD

Measuring 25'x8' 6" and weighing in at only 22,000 lbs, this rig hits the ground running without needing a CDL.

By fitting the 1340 DR onto a 4X4 with an 11-foot deck, Derex has redefined what's possible in rig design. Delivering true dual rotary capability with a small footprint that goes where others simply can't.

A milestone for us.
A shift for the industry.

1340 DR
SPECIFICATIONS

Hydraulic System
Gear pump

Top Head
Variable torque and RPM with 2" thru-hole
0-125 rpm @ 3,500 lb-ft

Lower drive
Variable torque and RPM with ability to chuck 4" to 10" casing
0-15 rpm @ 12,000 lb-ft

Diverter
Simple seal design with 4" NPT discharge
to control cuttings.

Derrick & Feed System
13' top head stroke
40,000 lbs pullback
15,000 lbs pulldown
100 FPM

Derrick slide/ dump
4' Derrick slide for angles up to 45°

Water Injection
9 or 18 gpm FMC injection pump

Main Winch
Manual jib
2,500 lb.
Optional Remote on helpers side for winch

Control Panel
Straight hydraulic controls (no electrics to fail)
Marine grade electric switches (for lights)
Murphy engine monitor display
Twin platforms

Levelling Jacks
Four 24" stroke independently controlled

Night Lights
6 LED night lights

Tool Boxes
30"x 18" x 18"

OPTIONS

Sand Line Winch
1,500' sand line

Mud Pump
3x2x13 centrifugal 300 gpm/300 psi
Centerline piston 150 gpm/600 psi

Line Oiler
Many oilers available

Drill pipe packages

Wire feeder and box

Hydraulic or gas welders
